

The Invisible Chain

by Debra Carruthers-Craig 11/12/22

Just the other night I was thinking about the dog on a 10 ft chain

And I was correlating it to our condition here in America

...a friend I once had chained her dog to a 8 foot chain

at the base of the close line she never trained her dog

she just fed and watered her dog I asked her what is the dog for, she said protection

One morning she called me and told me her dog hung himself on the close line

I laughed cause I knew she was kidding she said no, it is true

Oh, I said I am sorry...

It made me think about the events of the last 2 weeks and I realized

That dog on the close line Is Us

for over 200 years we were on that chain

then I realized we are still on that chain it is just longer the 8 feet

The events of the just past 2 weeks tells me we are still on that chain

it is just longer now but for these events I would not have seen this

It is time to GO!
